

In February 2019, we asked for your views on proposals to extend services at Rhydypennau Library and create a Wellbeing Hub. We would like to thank you for taking the time to come along and speak with us at the “drop-in” sessions, and for providing feedback through our survey, and your emails and letters. The consultation showed a high level of your support for the Hub proposals. A number of suggestions were made for improving the draft plans and we have taken these on board where possible, for example, the children’s library has been kept in its existing location.

We hope to update you on the project timescales as soon as we can. This is subject to funding approvals. Thank you for your valuable input.
